

PROUD TO BE CLEAN, IT'S EVERYONE'S BUSINESS

A Clean Working Environment

Surfaces and hands

- Clean surfaces and clean hands reduce the risk of transmission of harmful organisms.

Personal Responsibility

- You should know where to find the cleaning equipment and how to use it.

Maintenance

- Regularly check your area for faults and repairs – make sure these are resolved – it is difficult to keep a poorly maintained environment clean
- If you see something, report it, if you see litter, pick it up
